

Section 5.5  
Variables in  
Memory

```
int f ( )  
{  
    int x[10];  
}
```

```
return x;
```

**BAD**

Don't return a pointer to stack memory.

```
int G1;  
int G2 = 5;  
int main {
```

```
}  
int f ( )  
{  
  
}  
void g ( )  
{  
  
}
```
